# REPORT

## OF THE

# DEPUTY POSTMASTER GENERAL

## 1912-1913

POST OFFICE DEPARTMENT,

OTTAWA, November 13, 1913.

To the Honourable

L. P. PELLETHIER, K.C., M.P., &c.,

Postmaster General of Canada.

I have the honour to submit for your consideration the several statements annexed hereto, comprising the report for the year ending March 31, 1913. These statements show that there has been a very considerable expansion both in the service and in the transactions of the Post Office during the year.

The main points of increase are as follows:—

|                                                         |     |
|---------------------------------------------------------|-----|
| In the number of Post Offices, an increase of . . . . . | 319 |
| “ Postal Note Offices, an increase of . . . . .         | 358 |
| “ Money Order Offices, an increase of . . . . .         | 250 |
| “ Savings Bank Offices, an increase of . . . . .        | 40  |

There has been an increase of 2,151 miles in the extent of the system over which mails are carried by railway. The number of miles which mails have been carried by railway and water routes, and ordinary land routes is greater by 2,264,362 miles than it was for the year before.

The estimated increase in the number of letters and post cards sent during the year is 73,252,000, which is about 11½ per cent more than the figures of 1912.

Owing to the growth of the service in the directions mentioned, the expenditure has increased by \$1,710,769.10, as compared with last year, but there was a surplus from the operation of the service which amounts to \$1,177,671.86.

*The Cable Traffic between Canada and Australia and New Zealand by Pacific Cable.*—(Canada's relations with which are under the control of the Postmaster General) amounted to 575,042 words during the fiscal year.

Of this number, 416,766 words were comprised in deferred cable messages sent under the arrangements for deferred cable messages at reduced rates, which were introduced on the 1st January, 1912.

*Improved direct Canadian Mail Service to and from the United Kingdom.*—Hitherto the Canadian Mail Steamers carrying mails between Canada and the United

Kingdom have sailed only once a week; but a contract has been entered into with the Allan Line Steamship Company, the Canadian Pacific Railway Company, the Canadian Northern Steamships and the Oceanic Steam Navigation Company, under which these Contractors undertake, commencing on the 1st May, 1913, to provide a regular tri-weekly mail service during the summer and a regular semi-weekly mail service during the winter. The best steamers belonging to the four companies are to be employed for this service, and it is expected to place Canada in the position to which she has long aspired of being able to take care of practically all her mail for the United Kingdom. In the past a large proportion of this mail has been sent via New York. It will now go from Canadian ports in Canadian vessels.

*Letter Postage between the New Hebrides and Papua (British New Guinea) and Canada and other parts of the British Empire has been reduced to 1d. per ounce.*

*Letter Carrier Delivery has been put into operation during the year at the following places:—Galt, Ont., Strathcona, Alta., and Medicine Hat, Alta.*

#### RURAL MAIL DELIVERY.

Owing, doubtless, to the adoption of the new regulations which require the couriers to sell stamps, money-orders and postal notes on their routes, this Branch of the Service has increased with even greater rapidity than during the preceding year. The staff of field officers employed exclusively in laying out routes has been kept constantly busy in an endeavour to keep up with the flow of applications for new routes in practically every part of the Dominion.

The immense popularity of this improved rural mail delivery system resulted in the establishment of 600 new routes during the year ended 31st March, 1913; upon which have been erected 22,250 boxes. The fact that from the 1st April last to the present time (November, 1913)—a period of about seven months—600 more routes have been established and 23,000 more boxes erected, proves beyond doubt that the improvement inaugurated in 1912 in regard to the sale by the couriers of postage stamps, postal notes and money orders, was decidedly a step in the right direction.

There has been to date a constant clamouring for rural mail delivery all over rural Canada, which so far shows no signs of abating and the indications are that the time is not very far distant when the system will, at least in so far as Eastern Canada is concerned, be complete.

There are at this date (November, 1913) throughout the Dominion. 1,865 rural mail routes on which have been erected over 65,000 boxes.

#### POSTAGE STAMPS.

The issue of the year indicates a very gratifying increase over that of the previous year.

The increase in value was \$2,078,267.63, or say, 17½ per cent, and in quantity 103,155,995 pieces, or about 14½ per cent, the total value being \$14,112,927.63, as against \$12,034,660.00 in the preceding year, whilst in volume the output shows an aggregate of 809,508,359 pieces, as compared with 706,352,364 the year before.

## SESSIONAL PAPER No. 24

No new stamps were issued during the year, but in answer to a very general request from the commercial public, stamps in rolls are now being issued in the 1c. and 2c. denominations. The rolls contain 500 stamps each and are perforated either endwise or sidewise. It is estimated that the rolls will be a great convenience where quantities

The Department also made arrangements during the year to issue booklets containing twenty-four one-cent stamps, which sell at twenty-five cents each. The first issue was made on the 1st May, 1913.

of stamps are being used, wether with an affixing device or not.

## GOVERNMENT ANNUITIES.

The Government Annuities Branch was transferred from the Department of Trade and Commerce to the Post Office Department on the 1st January, 1912.

During the fiscal year ended March 31, 1913, 107 Immediate Annuities and 266 Deferred Annuities, amounting to \$25,294.59 and \$62,358.39 respectively, were purchased, for which purchase money to the amount of \$417,135.50 was received.

\* Though a reduction is shown in the number of Post Offices in Ontario, New Brunswick and Prince Edward Island, there were actually 100 new Post Offices opened during the year in Ontario, 41 in New Brunswick and 9 in Prince Edward Island ; but owing to the large number of Post Offices in these Provinces rendered unnecessary by the establishment of Rural Delivery, the number of offices closed exceeded the number opened.
